

# Testimonials

"Debbie and Amanda worked with my mom at her assisted living home. They were so wonderful with her, and she made great improvement. The kindness and compassion made such a difference for my mom. They're the best!"

- FC, Daughter

"I had hip replacement surgery and Heather was so kind, took time to explain everything, and was reassuring on how the recovery progress was going. Such a comforting manner when I was going through a painful recovery."

- LB, Sister

"Hello, you have a nurse Val, who has been beyond incredible. I want her supervisor to know that she has gone way above and beyond for this patient, and has possibly saved him a lot of stress and pain. I can't say enough. I am blown away!"

- CK, Nurse Practitioner

## How do I start home health care with Better You Home Health?

It's easy. If you are in the hospital or a skilled nursing facility, let your case manager, discharge planner, or social worker know that you selected home health care with Better You Home Health. They will send your information and referral to us directly from the hospital. If you are not in the hospital, tell your doctor, and they can refer you to us.

## Have questions or need help?

Please reach out to our team! We are happy to answer questions and facilitate your referral and care.
